I'm a Paid Media Executive Intern who works hands-on across Meta and Google Ads — from building the first audience and ad copy to reading the reports that decide what happens next. I enjoy the mix of creative thinking and analytical rigor that performance marketing demands, and I work with AI tools to turn raw campaign data into clear, actionable insight for clients and teams.

Primary School Admission Campaign Performance Snapshot | 29 July – 11 August

The Admission Campaign was run from 29 July to 11 August, as per the client's requested timeline. Initially, the campaign used a video creative provided by the client.

To address potential creative fatigue and improve campaign performance, I recommended introducing a static creative as an alternative. After the static creative was incorporated, we observed an improvement in campaign views and lead generation, indicating stronger audience engagement and campaign response.

Matrimonial Brand, Search Ad Campaign Performance Snapshot
This Lead Gen Campaign was run from 13 Aug to 31 Aug, as per the client’s requested timeline.

Created two Search Ad Campaigns—one focused on Brand and the other on Generic Search. Conducted continuous search-term refinement and optimization to improve traffic quality and campaign relevance. Based on client feedback, further refined the audience targeting to align with their desired customer profile, including the targeted household income segments. Following these optimizations, the campaigns delivered positive results with improved audience relevance and engagement.

CONTENT CREATION & META PROMOTION

Created engaging content for an internal brand, including the concept and execution of a Reel. Then I boosted the Reel on Meta to increase its reach, visibility, and audience engagement. (**19K views in a month**)
